A 2x5 grid of numbers. The top row contains the numbers 2, 4, 6, 8, and 10. The bottom row contains the numbers 12, 14, 16, 18, and 20. Each number is centered in its respective cell. Small symbols are placed at the intersections of the grid lines: a white circle at the intersection of the first vertical and second horizontal line; a white square at the intersection of the second vertical and second horizontal line; a black circle at the intersection of the third vertical and second horizontal line; a black square at the intersection of the fourth vertical and second horizontal line; a black triangle at the intersection of the fifth vertical and second horizontal line; a black semi-circle at the intersection of the first vertical and first horizontal line; a black diamond at the intersection of the second vertical and first horizontal line; a black cross at the intersection of the third vertical and first horizontal line; a black club at the intersection of the fourth vertical and first horizontal line; and a black heart at the intersection of the fifth vertical and first horizontal line.
